CLERK, U.S. DISTRICT COURT
By _____
Deputy

Dear: Honorable Judge Jane Boyle;

Forgive me for the informalities of this letter! but I felt the need to be able to express myself in regards to my case. The reason why I am fighting so harshly is because my wife is dying. Her health has so rapidly degressed since my detention alone that she consistantly keeps ending up with emergency response teams knocking at our door and having to revive her from out of unconsciousness because she has diabetes (hypoglycemia mellitus type 1). Since the 10 months of my detention, EMS has come to our house well over 15 different times. Durring these episodes not enough oxygen gets to her brain and as a result, she is now suffering from amnesia and having trouble remembering things; brain cells are being killed off quite quickly. I was her primary care taker before my arrest. I have with me a doctor's note from her diabetes specialist stating that her condition is uncontrolled, which means that her blood sugar fluxuates and is at this point impossible to control, making it rather uncontrollable. She cares for our almost 2 year old daughter, and holds down a full time job. My wife, her name is Beatriz and she's only 25, too young to die. For this very reason I felt John Nicholson was not thinking about my best interest as he refused time and time again to help me get out on PR bond and even as I said earlier would withdraw from being my attorney if I was to file one myself. I am acting out of desperation, your honor. And rather I feel a bit confused, as I have seen earlier that the DOJ did even let a man on a child pornography case out on pre-trial release bond, and yet he isn't considered a danger to society? My only goal for the time being is to ensure that my wife is taken care of, because if she breathes her last while I am in here, there's really no one to care for our daughter. At less than a month away from trial, I haven't spoken to my attorney for months, i am sure he will come around a day or so before trial.

I do appreciate your time and thank you for it.

May God Bless you;

Jesse McGraw
